

## H-Series Optional Fireplace Screens

### Installation instructions

Included:

6 metal tabs

6 magnets

**How to install:**

- 1.) 3 tabs will slip between the front hearth panel and the inside frame of the front of the fireplace unit. These should be spaced with one tab in the middle and the other two at the ends of the fireplace. A single magnet is to be placed on the exposed end of the metal tab.

- 2.) 3 large metal tabs will slide between the ceiling panel and the upper inside frame of the fireplace. These should be spaced with one tab in the middle and the other two at the ends of the fireplace. A single magnet will be attached to the exposed metal.

- 3.) The bottom of the screen will sit on the fireplace return and go up against the tabs and the magnets. Push the top of the screen into place so that the top of the metal screen frame attaches to the ceiling magnets.
