

## MEDIA ADVISORY

European Home invites you to experience the beauty of a modern fireplace at the largest design fair on the west coast, Dwell on Design. The latest international design trends and products will be featured during this four-day design experience, including a modern gas fireplace by European Home.

**Who:** [European Home](#), a designer, manufacturer and distributor of modern gas and wood fireplaces

**What:** Dwell on Design Method Home Prefabricated Show Home Booth 746, featuring a European Home fireplace

**Why:** Cutting edge technology and high-quality materials are bringing a clean and simple artistic appeal to modern gas and wood fireplaces. European Home representatives will be available for product demonstrations and media interviews.

**Where:** [Los Angeles Convention Center](#) Booth 746  
1201 S Figueroa Street  
Los Angeles, California, 90015

**When:** Thursday, April 5, 2018 to Saturday, April 7, 2018

**RSVP:** [Europeanhome@rhinopr.com](mailto:Europeanhome@rhinopr.com)

### Details:

European Home designs, distributes, and manufactures high-quality and beautiful modern gas and wood fireplaces with clean lines, simplicity, and attention to detail. In addition to their own line of modern linear fireplaces, manufactured in New England, they are also the exclusive North American distributor of iconic fireplace brands such as Focus Fires (France) and Element4 (Netherlands). A [Modore 140 MKII](#) by Element4 will be featured on the Dwell on Design event floor in a pre-fab house exhibit by [Method Homes](#).

Method Homes is a custom manufacturer of prefabricated modern structures, including modular homes, commercial buildings, and garages. As a leader in the prefab building industry, Method Homes focuses on building precision-engineered and sustainable structures, including structures meeting LEED Platinum.

The fully functional pre-fab home display will showcase Element4's Modore 140 linear fireplace with a Concrete Style designer interior. The Modore 140 is a direct vent fireplace with a 55" wide viewing area and a sleek design with a trimless finish for a completely modern look. Fire media is available in a wide range of options, including clear or black glass, white Carrara pebbles, grey stones, pre-curved media mixes, or logs, which completely conceal the burner and create a seamless, natural flame.

The Modore 140 is an ecologically smart choice, with Quad-Burner Technology and an E-Save eco mode helping save up to 45% on fuel consumption compared to the highest setting. Produced by Element4 B.V., an award-winning fireplace manufacturer from the Netherlands, the Modore 140 is distributed by European Home for installations throughout North America.

The Modore 140 will be installed with an optional Concrete Style designer interior to provide a bold industrial aesthetic with a freshly poured concrete appearance that enhances the look of the flames.

### **About European Home**

European Home is a designer, manufacturer and distributor of modern gas and wood fireplaces from leading manufacturers across the globe as well as its own brand name line made in the United States. All products are expertly crafted with cutting edge technology and high-quality materials to minimize noise

and provide a natural, appealing flame. Whatever your design aesthetic or style, you'll find the perfect fireplace with European Home's complete line of indoor and outdoor fireplaces. For more information, please visit <https://www.europeanhome.com/>.
